

HR with TAG saves you time and money.

Let Tag assist with your Human Resources and overnight you will have more time to spend on meeting existing customers' needs, winning new business, and advancing your competitive position in your marketplace.

TAG's expertise improves your bottom line

Running an effective HR department is costly. With the support of Tag's HR Professionals, you get specialists who help you with all the complicated, time-demanding tasks without increasing your payroll. And, as your company grows, you won't be hiring additional human resources personnel to meet further HR demands.

TAG ensures compliance

You can't possibly keep track of all the governmental rules and regulations necessary to keep you from inadvertently getting in trouble. TAG has the professionals to take care of every detail – on changing laws related to hiring, insurance claims management, and benefits regulations, and more. We stay on top of regulatory complexities, so you are always compliant.

Our team holds professional certifications from the Society for Human Resource Management (SHRM) and through the Human Resource Certification Institute (HRCI).

TAG's cloud-based technology delivers greater efficiencies

With our web-based software solution, we assist and manage all components of your HR processes. This allows you to work more efficiently, to review and amend important files for information instantly from the desktop or from a mobile device, such a tablet or a smartphone.

TAG can configure an HR solution for you. For a complete list of the human resources management services we offer, visit tagpay.com.
