

# TAG Report Wizard

## How well do you know your company?

Can you answer the following questions about your company in less than **five minutes**?

- What is your **average labor cost by department** for the last six months? Year?
- Which is the highest? Lowest?
- What is the **average break time** by employee? Position? Department?
- **How many 401(k) participants** are on your plan and what is the **average % of contribution**?
- What is your **attrition rate** by department?
- What is the **total value of assets, by asset type**? Which assets have not been returned by terminated employees?

Many small businesses today are unable to answer these questions because they lack **easy access to data** about their own company.

## Revolutionary...

- TAG's report writer allows you to quickly **answer the questions above** and many more through a powerful, integrated and time-saving tool. It will allow you to **revolutionize** how you do business.

## Time Saving...

- The Report Writer is an **easy-to-use tool** which allows you to quickly query critical **aspects about your business** in minutes.
- **User-friendly reporting tool** using a report wizard for simplicity while allowing advanced options to accommodate any level user.
- TAG's Report Writer uses the **latest in web technology** to offer you a simple web interface to write reports from any computer at any time.

## Powerful...

Build reports which...

- simplify your life by having **repeatable, customizable reports at your fingertips**.
- change the way you do business with **hundreds of data points to analyze, forecast and discover** ways in which your business will be more **profitable**.
- **provide a direct interface** with your systems **through easy-to-use export** and easy-to-use customization features.
- **are simply... powerful**.
